“ *I just wanted to reach out to your family. I was a witness at the accident that took your son's life. I want you to know he was not alone, myself and another person were with him until the authorities came and throughout the entire time. I know this is a difficult time for you. I recently lost my own brother in an accident and found comfort when I was told he had someone by his side when he was injured. I hope this gives you some peace as well*
